APACHES.

Raiding in Sonora

Tucson, A. T., 11.—Prof. H. B. Clifford, of Washington, has just returned from Ures, Sonora, where he has been examining mines for an eastern syndicate. On the afternoon of the 8th he with Jas. Walton, of El Paso, were attacked by a band of Apaches thirty miles southeast of Ures. Walton was seriously wounded in the left shoulder and Clifford received a wound on the right side. Clifford saved Walton from falling into the hands of the Apaches by holding him on his horse till out of their reach. He states that that section of Sonora is swarming with Apaches.

The Star's Mexican advisers of the 8th from Hermosillo, Sonora, say parties just arrived from Ures report the depredations in that section most fearful. Over 200 warriors are in the Mazatlan mountains near Ures and make daily raids in the valleys in small bodies, burning crops and houses and murdering the inhabitants. During the past twelve days forty-five persons have been murdered within a radius of twenty-five miles of Ures. Among the victims is Lazaro Velasco, a wealthy citizen of Ures. Two prominent government officers are among the murdered. Last week they attacked the rancho Viejo. The fight lasted four hours. Four of the ranchers were killed, and the remainder wounded. The Apaches were left on the field. The approach of a body of Mexican troops caused them to retreat. The Apaches are from San Carlos agency, all armed with Winchester rifles, and use cartridges stamped U. S. The Mexicans are poorly armed with muzzle loaders. The country is terrorized, business paralyzed, settlers flying from their ranches to Ures, and all available Mexican troops are being concentrated to operate against them.

Bad for Brady.

Chicago, 11.—Washington special: The footings of the tables prepared at the postoffice department, showing the amount paid for expedition under second assistant Routt, Tynar and Brady are both interesting and significant. Under Routt during three years and six months fifteen star routes were expedited. The annual pay was \$312,278, expedition \$144,728. Tynar, in the one year of his service, expedited only five routes. The annual pay of these was \$27,533, and the expedition only \$12,950. Brady's record for three years and ten months, only four months longer, shows that he expedited 119 routes. The annual pay of these was \$292,133, and its expedition \$1,411,883.

Kentucky Crops.

Henderson, Ky., 11.—This county harvested the largest wheat crop it has ever known. Much of it was threshed early and sold for \$1 per bushel. A great deal, however, is not yet threshed, and in many instances has been greatly injured by wet weather. In many places it is sprouting in the stack. Buyers are now paying 90c for a good article. The now paying 90c for a good article. The season has now suffered very serious injury from heavy rains of the past two weeks, while barley is suffering more than other varieties. The corn crop is good. There is little or no old corn, and farmers think the process must continue good with a good crop.

The Bar Association.

Saratoga, 11.—At the session of the American Bar Association Isaac W. Jordan, of Ohio, read a paper on "trial by jury; its defects and remedies." The law should be changed requiring unanimity in verdicts of the jury. In states in which the change had been made the best results followed. There is nothing in the federal constitution which prohibits states from making the change. A resolution was adopted recommending an executive council. The next annual meeting of the association will be at Greenbrier Springs, Va.

Wants Her Share.

New York, 11.—October 10th, 179, Dr. Henry J. Phillips, surgeon in the United States army, died leaving a will in which he excluded his wife, and after making small bequests gave the rest of his estate to his relatives in England. The wife, who is 20 years younger and is a niece of Judge McAllister, of the supreme court of San Francisco, contested the document on the ground of undue influence. Surgeon Rollins rendered his decision in the matter to-day, admitting the will to probate.

Chicago Chips.

Chicago, 11.—The school census will make 567,000 the present population of Chicago.

Secretary Martin, of the Amalgamated Iron and Steel Association, says they adopted a resolution guaranteeing manufacturers that they would not ask an advance on the nailing and puddling scale prices for five years. They have not asked any guarantee of the manufacturers. They have secured a better constitution and code than ever before, and laid the basis of a better understanding with manufacturers.

Kentucky Election.

Louisville, 11.—The official vote of this county shows Webb is elected county clerk over Egghoff, by forty-three majority. The total vote is 19,745. Returns from the state came in slowly, and there has nothing developed which would tend to break the prediction made a week ago, namely, that democrats will elect Henry clerk of the appellate court by 3,300 majority.

Strike.

Cohoes, N. Y., 11.—As a result of a mass meeting last night, the executive committee of Harmony Mill "stay out" claim a decrease of twenty-three in the working force of weavers, and promise two more to quit to-day. A decisive struggle will be made on Monday.

Mean to Meany.

New York, 11.—Private dispatches received here to-day say that Stephen J. Meany, well-known Irish agitator, was arrested yesterday at Ennis, Ireland. He had just arrived at Ennis, his native place, when he was taken into custody by the police. He left this city for Ireland two weeks ago. Previous to his departure his friends advised him not to go where he would be liable to arrest.
